Office Action Summary	Application No. 09/816,684	Applicant(s) SUDIA ET AL.	
	Examiner Andrew L Nalven	Art Unit 2134	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. Newly submitted claims 21-42 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

a. Group I represented by claims 4-20 as originally presented, drawn to a method for remotely invoking the use of a secret cryptographic key share in a process to generate a digital signature, classified in class 380, subclass 286.

b. Group II represented by claims 21-42, drawn to a digital signature, classified in class 380 subclass 277.

2. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the digital signature of group II can be made by another process and the process of group I can be used to make another different product. For example, the claimed digital signature of group II may be formed by a single signing device or by a wholly different procedure such as through a hashing algorithm. Further, the process of group I can be used to make a different product such as a random number.

3. Further, group II presents the additional limitations of "generating shares of a private signature key" and responding "authorization from a minimum number of authorizing agents; wherein a plurality of partial signatures constitutes a digital

Art Unit: 2134

signature." As a result of these added limitations, group II presents an invention distinct from that of group I.

4. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 21-42 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Response to Amendment

5. The reply filed on 11 August 2004 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant failed to reply to every ground of rejection or objection in the prior office action. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew L Nalven whose telephone number is 571 272 3839. The examiner can normally be reached on Monday - Thursday 8-6, Alternate Fridays.
